De fyra romanerna "Lyckans tärning", "Argan list", "Ärans tinnar" och "Domens dag" bildar tillsammans en spännande och färgstark krönika från Vasa-konungarnas tid. I centrum står ätterna Brahe och Sparre och deras öden under en period i svensk historia som präglades av barbari, slöseri, praktfullhet och dramatik. "Argan list" fokuserar på perioden 1584–1594 och den blodiga maktkampen mellan Johan III, hans son Sigismund och hertig Karl. Rune Pär Olofsson, född 1926 på Gotland, är en svensk författare, journalist och präst. Han är mest känd för sina historiska romaner men har även bland annat skrivit dikter.

Josie Maran's Argan Matchmaker Serum Foundation is formulated with chameleon pigments, a breakthrough color-match technology that reads and instantly adjusts to match your unique and changing natural skin tone.
